

## TechTAC® Adds Seat Nipples to Its Suite of Downhole Products

TechTAC®, your premier tubing anchor solution provider, now offers three sizes of seat nipples to Authorized Dealers throughout North America. Because the seat nipple is typically replaced whenever the TAC is replaced – and vice-versa – allowing service companies to order both products from one vendor simplifies their supply chains.

### Key Features and Specifications

Every TechTAC® seat nipple is:

- ◆ Made in America
- ◆ Produced with high-quality steel
- ◆ Machined with tight tolerances
- ◆ Reversible, for double the product lifespan
- ◆ Available in 3 sizes, including:

Part #	Connection	Length	ID	API
SN1	2 3/8"	12"	1.780"	Yes
SN2	2 7/8"	12"	2.280"	Yes
SN2-X	2 7/8"	12"	2.250"	No
